

glycosylation

[BIO214] The rate of diffusion is greatly accelerated by the action of carrier molecules called permeases

[BIO214] Which of these is not an example of steroids
glycerol

[BIO214] How many nuclear genome are there in humans
23 pairs

[BIO214] lipids in the cell composed largely of
hydrogen and carbon

[BIO214] The separation of daughter cells after cell division is called
cytokinesis

[BIO214] The uptake of external materials by a cell is called
endocytosis

[BIO214] Which of these organelle solely regulate calcium levels
Sarcoplasmic reticula

[BIO214] The subunit in the amino acid is linked by
peptide bonds

[BIO214] This is not a subclass of lipids
glycoproteins
