

Coulomb

[BIO215] Which of the following is not a type of colorimeter used in laboratories?
Beckman 202

[BIO215] Which of the following is not a derived unit?
Candela

[BIO215] To which of the following colour(s) are people less sensitive? I. green, II. red,
III. violet
II and III

[BIO215] Which of the following is not true of errors?
they should not be lived with

[BIO215] Siemen is the SI unit of which of the following physical quantities?
conductance

[BIO215] Siemen is the SI unit of which of the following physical quantities?
Pressure

[BIO215] Which of the following laws state that the absorption of a monochromatic light
passing through an absorbing medium is directly proportional to the concentration of
the absorbing molecules for a constant path length?
Beer's law

[BIO215] Which of the following types of light is photometry concerned with?
visible light

[BIO215] Which of the following is the most widely used method for determining the
concentrations of biochemical compounds?
colorimetry
