voltammetry

[CHM413] In a regression and correlation analysis if r 2 = 1, then
SSE = SST

[CHM413] Helium is generally preferred as carrier gas over nitrogen and hydrogen
Because_____
all of above

[CHM413] A fitted least squares regression line a may be used to predict
value of y if the corresponding x value is given

[CHM413] The conductivity of an electrolyte is depended on one of the following
factors____
pressure

[CHM413] At higher temperature the conductivity of conductors____
decrease

[CHM413] The process of heating a liquid mixture to form vapours and then cooling the
vapours to get pure component is called ____
Distillation

[CHM413] The conductance of an electrolyte solution ____ with increase in the
temperature
increases

[CHM413] In regression analysis, if the independent variable is measured in kilograms,
the dependent variable
can be any units

[CHM413] What does the selectivity factor describe?
The relative separation achieved between two species
