Plot the graph

[AGR302] Steps in using the chi-square test include all BUT:
Write the observed frequencies in column

[AGR302] _____ probability is used when classical and empirical probabilities are not available.
sample space

[AGR302] _____ probability is used when classical and empirical probabilities are not available.
outcome

[AGR302] _____ probability is used when classical and empirical probabilities are not available.
outcome

[AGR302] Estimates of central tendency include all BUT:
6

[AGR302] Estimates of central tendency include all BUT:
4

[AGR302] Estimates of central tendency include all BUT:
4

[AGR302] Estimates of central tendency include all BUT:
4

[AGR302] When there is no direct connection nat all between highly correlated variables, it is termed _____
Spurious
