

Tyrosine

[ANP204] Allantoin is the end product for purine metabolism in _____
sub primate mammals

[ANP204] The parent amino acid for amine Cadaverine is
Arginine

[ANP204] In nucleotides, nitrogen bases are joined to the sugar through the hemiacetal
group on the -----
C-1

[ANP204] Which of these is a sugar found in nucleosides?
ribose

[ANP204] One of these is an alkaloid found in tobacco
Nicotine

[ANP204] The monomeric units of nucleic acids are -----
nucleotides

[ANP204] One of these is a purine base
adenine

[ANP204] One of these alkaloids is found in potatoes
Solanine

[ANP204] One of these alkaloids is found in potatoes
Jacobine
