

Nutrient release

[BIO405] The introduction of materials to water bodies to a level that the water quality gets depleted ?

Pollution

[BIO405] Which of the following is not among the problems of eutrophication on human societies ?

Increase in water flow

[BIO405] Which of the following is used to control internal load of phosphorous ?

By oxygenation

[BIO405] Which of the following is not among the different parameters for measuring eutrophication ?

Nutrient reaction

[BIO405] The phosphorous pool is also called \_\_\_\_\_ .

Internal load

[BIO405] Which of the following is not among the control of eutrophication ?

Nutrient control measure

[BIO405] Which of the following is not among the other types of pollution that can degrade soft water ?

Citric pollution

[BIO405] Which of the following is not among the symptoms of eutrophication ?

Domestic Impact

[BIO405] Which of the following is not among the effects of eutrophication on receiving ecosystem?

Increase in species diversity
