

called?
titration error

[CHM202] Equilibrium constant of water $K_w = ?$
 $[H^+][OH^-]$

[CHM202] Substance that resists slight changes in pH of a system is called?
buffer

[CHM202] What type of reaction is depends on a chemical reaction between the
analyte and a standard reagent?
acid-base reaction

[CHM202] A sample of Kunu drink has a pH of 3.76. calculate $[H^+]$?
 $1.7 \times 10^{-4} \text{ M}$

[CHM202] Calculate the pOH of 0.05 M KOH?
1.3

[CHM202] Which of the following organic agent is used to precipitate Pb?
dimethylglyoxime

[CHM202] Which of the following is not a factor that influence solubility of precipitate?
surface area

[CHM202] Calculate the molar concentration of OH^- in 0.001 M $Ca(OH)_2$ solution?
0.002M

[CHM202] Volatilization gravimetric analysis is also called?
Gravimetric combustion analysis
