

carboxylate  
Fehling solution

[CHM305] The carbanion is a hybrid of structures  
2

[CHM305] Heterocyclic compound have at least \_\_\_\_ hetero atom as a ring number  
1

[CHM305]  $\tilde{A}, \hat{A}$  \_\_\_\_\_ is a direct contrast of aldol condensation  
Cannizaro reaction

[CHM305] The following are the main categories of heterocyclic compounds except:  
uniform atom membered

[CHM305] \_\_\_\_\_ restores the red colouration of Schiff reagent  
Aldehydes

[CHM305] Aldehydes and ketones characteristically undergo the following except  
Nucleophilic subtraction

[CHM305] The family name ending  $\tilde{A} \phi \hat{a}, -\hat{a} \in \text{eose}$  indicate  
Carbohydrate

[CHM305] one of this is not a physical property of pyrrole  
Chloroform like smell.

[CHM305] Pyridine can be isolated from the oil fraction of  
Coal tar
