

different intensity value found in that image.

Histogram

[CIT742] \_\_\_\_\_ is a broad term that refers to the compression of any type of multimedia most notably graphics, audio and video.

Multimedia Compression

[CIT742] The following are the sources of Texts and Static media EXCEPT \_\_\_\_\_.

Mouse

[CIT742] One of the following is a component of Multimedia System?

Capture Devices

[CIT742] The data used by a multimedia system may be in a variety of formats including all except one of these?

Media

[CIT742] The card/Scripting Paradigm is known to suffer from which of these?

The index-card structure

[CIT742] One of the many aspects that makes the Discrete Fourier Transform (DFT) so attractive for image processing is existence of \_\_\_\_\_ to compute it.

Very fast Algorithm

[CIT742] In two dimensions, the DTF takes a matrix as input, and returns \_\_\_\_\_ of the same size as output.

Another Matrix

[CIT742] Which of these software Engineers is credited with the invention of Hypertext?

Ted Nelson

[CIT742] One of the ways to compress video source is to apply any of the common algorithms such as the \_\_\_\_\_ independently to each frame that makes up the video

JPEG Algorithm
