[PHY314] \_\_\_\_\_ programming as a tool for numerical analysis  
C++

[PHY314] A line that begins with # C++ language program is a directive for the \_\_\_\_\_  
Preprocessor

[PHY314] Namespace contains all the elements of the standard \_\_\_\_\_  
C++ library

[PHY314] C++ programming is a tool for \_\_\_\_\_  
Numerical analysis

[PHY314] The symbol << program in C++ language is the \_\_\_\_\_  
Insertion operator

[PHY314] The angular frequency of oscillation in the equation  $x'' + \omega^2 x = 0$  is  
 $\omega$

[PHY314] Which of these statements begin the definition of the main function?  
int main () in C++ language.

[PHY314] A pair of second-order ordinary differential equations were reduced to \_\_\_\_\_  
first-order differential equations  
4

[PHY314] an nth order ordinary differential equation can be written as a set of \_\_\_\_\_  
ordinary differential equations  
n
