

Physics

[ECO459] \_\_\_\_\_ refers to a state where there is a change such as movement  
dynamics

[ECO459] According to Prof. Harrod, \_\_\_\_\_ is the study of an economy in which rates of  
output are changing  
Economic dynamics

[ECO459] After 1925, dynamic economics became popular not only in business  
fluctuations but also in the determination of income and \_\_\_\_\_ models  
growth

[ECO459] \_\_\_\_\_ was also first to emerge in England in the mid-1800  
Matrix algebra

[ECO459] Since the end of the nineteenth century, economic analysis has been fairly  
rigidly compartmentalized into statics and \_\_\_\_\_  
dynamics

[ECO459] Comparative economic statics does not show the path of change of the old  
to \_\_\_\_\_ equilibrium  
new

[ECO459] Linear \_\_\_\_\_ is the branch of mathematics concerning vector space and  
linear mappings between such spaces.  
algebra
