1. Bante is a final year medical student in the University of Otokoro. Miss Bante had started finding life so hard and difficulty since 2018 after the death of her father Coolman. Bante's mother could not adequately cater for her and her younger siblings due to the high cost of things in the nation today. To make the matter worse, Mr. fearless, Bante's uncle has been tormenting her and her mother over their late father's property. Fearless has told them that the tradition in Uleh community where they hail from, is that women have no right to inherit property especially landed ones. Fearless attempted to eject the tenant in late Coolman's house, for paying rent to Bante and her mother instead of him. Bante's mother has advised her and her younger sisters to accept the position of Mr. Fearless and allow peace reign. But with her little exposure, Bante has vowed to resist the attempt by her uncle to dispossess them of their father's property. Being angered with this decision, Fearless has issued many threats to deal with them, one of which threats materialized last month when he physically assaulted Bante and her mother for daring to ask him question over the harvest of the entire pear in their compound. Bante is now making preparations to take some legal actions but is afraid, because everyone in the neighbourhood is warning her that she will lose any suit against Fearless who has the right to treat his brother's property the way he likes and that beating her and her mother does not offend any law because they are women.
